

TO WHOM IT MAY CONCERN

I have known Veronica Saguier since the fall of 2010, when she took over the landscaping of my newly built home in Cafayate.

Veronica created for me a highly detailed and professional description of her tentative garden design with an accurate estimate of cost as well as realistic time frame for completion of the work. In order to do that, she first ascertained my taste concerning color, scent, favorite plants, special requests as well as general style of garden and plantings. She sent me color photos of all the plants and grasses she intended to use, to make sure that I agreed.

Once we had agreed on the final plan, including an automatic irrigation system installed on my lot, she began the actual work and kept me informed about progress throughout the project with emails and pictures.

Now, two and one half years later, I believe and others agree, that I have the loveliest garden in La Estancia. Vero was a pleasure to work with and to have around and delivers exactly what she promises to and on time. The following year, when it became clear that certain plants were not doing well, she promptly replaced them until the whole job met her specifications. I could not be more pleased.
